

**East Valley Water District
Advanced Metering Infrastructure Pilot Implementation Project**

**ATTACHMENT 1
ELIGIBLE APPLICANT DOCUMENTATION**

Is the applicant a local agency, joint powers authority or non-profit organization?

The East Valley Water District (EVWD/District) is a local agency serving the City of Highland, the eastern portion of the City of San Bernardino and pockets of unincorporated areas along the foothills of the San Bernardino National Forest. We also serve the San Manuel Band of mission Indians. The total area encompasses 17,750 acres, or 27.7 square miles, and has a current service population of approximately 95,000 persons. EVWD treats and distributes potable water to customers through 293 miles of water distribution mains and 20,670 service connections, and collects wastewater through 19,370 sewer connections.

What is the statutory or other legal authority under which the applicant was formed and is authorized to operate?

The District was formed on January 18, 1954, through an election of local residents who wanted water service by a public water agency. It operates in accordance with Division 12 of the California Water Code.

Does the applicant have legal authority to enter into a grant agreement with the State of California?

Yes. The East Valley Water District has legal authority to enter into a grant agreement with the State of California.

Describe any legal agreements among partner agencies and/or organizations that ensure performance of the project and tracking of funds.

Not applicable. EVWD is submitting the application as a single agency and will not be partnering with any other organizations for this project.
